Technical data sheet

Application

H2 Acid Finish is formulated for hygienic cleaning of worktops, kitchen equipment and cutting boards in commercial kitchens and the food industry. Clean the surface thoroughly before applying this product. H2 Acid Finish does not leave any chemical residues. This product does not contain any perfumes or colouring agents. All ingredients are approved food additives.

Environmental Benefit: All Ecover Professional cleaning products are free from chlorine compounds, other halogen compounds, inorganic acids, and petroleum-based detergents. All detergents used in these products originate from vegetable sources. All ingredients of non-mineral origin are fully degradable according to the OECD 301 F test.

Instructions for use

Manual use:

Prepare a 1–5% solution in a bucket of water.
Apply to the surface with a cloth or sponge and let it work in for 15 minutes.
Rinse thoroughly with clean water.

Floor cleaning:

Prepare a 1–5% solution in a bucket of water.
Apply to the floor with a mop or scrubbing brush and let it work in for 15 minutes.

Rinse thoroughly with clean water.

Misting:

Prepare a 1–5% solution in a sprayer.
Spray the solution in a fine mist onto the surface to be treated.
Rinse thoroughly with clean water.
