## Technical data sheet

### Application

Techno Floor Forte is a powerful, ecological floor cleaner for professional use. This product is suitable for daily and periodic cleaning of water-resistant floors using a mop, cloth, or scrubber-drier. It is formulated for cleaning moderately to heavily soiled floors in garages, workshops, production areas, etc. Besides readily degradable limescale removers and solvents, Techno Floor Forte contains low-foaming, rapid-acting detergents, which make it exceptionally suitable for use in machines. Do not use this product on untreated wood or parquet floors.

**Environmental Benefit:** All Techno Green cleaning products are free from chlorine compounds, other halogen compounds, inorganic acids, and petroleum-based detergents. All detergents used in these products originate from vegetable sources. All ingredients of non-mineral origin are fully degradable according to the OECD 301 F test. Low impact on aquatic life according to OECD 202.

This product bears the European Ecolabel.

### Instructions for use

#### Manual use

Prepare a 0.5% solution by adding 40 ml (2 capfuls) of Techno Floor Forte to a bucket containing 8 L of water. Clean the floor with a mop or cloth. Allow to work in for 1 to 5 minutes if necessary. Rinsing is not necessary. The concentration can be doubled in case of heavy soiling.

#### Machine use

Prepare a 0.5% solution of Techno Floor Forte in the scrubber-drier (50 ml per 10 L of water). Clean the floor with the machine. Allow the cleaning solution to work for 1 to 5 minutes if necessary. The concentration can be doubled in case of heavy soiling.
