Technical data sheet

Application

Car Wash is an ecological car shampoo for professional use. Car Wash is recommended for hand washing of vehicles. This product has a pH-neutral formula and is therefore gentle to your hands.

Car Wash provides a protective, anti-static and water repellent wax coating that reduces adhesion of dirt and grime.

Environmental Benefit: All Techno Green cleaning products are free from chlorine compounds, other halogen compounds, and petroleum-based detergents. All detergents used in these products originate from vegetable sources. All ingredients of non-mineral origin are fully biodegradable. Low impact on aquatic life according to OECD 202.

Instructions for use

Add 40 ml to 8 L of water. Ensure that your car is not standing in the sun so you are not working on warm bodywork. Apply with a sponge, and use rainwater if possible. Always start at the top of the car, avoid letting the product dry on the vehicle, and rinse thoroughly with clean water. Dry using a chamois and then polish with a soft cloth.
